## **Fellowship Terms and Conditions**

- The university based supervisors shall be referred to as the home supervisors while the laboratory based supervisor shall be referred to as the host supervisor.
- To preserve intellectual contribution of the host scientist/supervisor, the host scientist/supervisor will be officially enlisted as co-supervisor on the student's project.
- The purpose of this fellowship is to carry out practically relevant projects, the laboratory will therefore not approve/support projects that are not contemporarily relevant. Results from the projects are envisaged to be applicable in the real world. Exact projects will be discussed with successful candidates and home supervisors after the short listing process.
- Research results shall be published in reputed scientific journals. The host and home supervisors shall be co-authors alongside with the student and whosoever make meaningful contributions to the research. The laboratory shall be first affiliation on the publications, and the student is entitled to use this affiliation for the purpose of publications that emanate from his/her work in the laboratory. The Department/University of the student shall also be an affiliation.
